WABASH WILL DEPEND

ON REED AND HIENTZ.

These Two Great Athletes Are Expected to Bring Glory to Track Team.

BOTH HOLD RECORDS

Reid Has Been Captain for Two Years and Is a Star Two-Mile Runner.

Special to the Indianapolis Journal.

CRAWFORDSVILLE, Ind., Feb. 6.—While Wabash has no great number of strong athletes, she has two of whom she can well boast. These are Reid and Hientz. Both of these men have been in college three years and have taken a prominent part in the college athletics throughout. Reid is from Warsaw, Ind. He is working his way through college by aiding Professor Hains in various duties. As a scholar he stands well. He is a member of the Phi Beta Theta fraternity. Reid has been captain of the track team for two years. His greatest ability is in running the two miles. At the meeting of the Intercollegiate Athletic Association at Bloomington last year he captured the two-mile run in the time of 10:15, beating the second runner by 500 yards. He has the record of 10:15 here. Last year in the meet here with DePaul he distanced Lightbody, the crack long-distance runner of DePaul, who is said to be making such fine work under the coaching of Coach Staggs of the University of Chicago. In this same meet Lightbody captured the mile and a half run from Reid.

In the Indiana Intercollegiate Athletic League meet at Richmond last year he captured the mile in 4:30.35, distanced the second runner by 230 yards. His mark for the mile is the record for this league. In a meet with State Normal last year he won the mile.

Hientz is from Richmond, Ind., and has been in college three years. He is now a sophomore. He is a member of the Kappa Sigma fraternity. His records in the different meets of last year are as follows: In the I. I. A. A. meet at Bloomington he won second in the half-mile, making it in 2:03. In the meet with DePaul he won the 100 yards, 220 yards, 440 yards, 880 yards, 120 hurdles and was second in the 220 hurdles. In the DePaul contest he secured the 220 dash, quarter of mile run and the 220 hurdles. In the meet at Richmond he pulled out the quarter mile in 1:50.35, the 220 dash, third in the 220 hurdles and first in the 120 hurdles.

THREE CLOSE GAMES IN M. T. H. S. LEAGUE

Freshies Win One Game from the Ikkikos by a Margin of One Pin.

PROTEST SENT OUT AGAINST COLLEGE

Indiana, Purdue and Notre Dame Included in the Athletic Protest.

CHICAGO, Feb. 6.—E. E. Conley, superintendent of the Chicago public schools, and members of the high school board of control of Chicago, have sent a protest to the faculties of eleven large Western universities concerning the practice of allowing high school pupils to enter the universities to play on athletic teams without sufficient credits to entitle them to enter. It is announced that the protest was signed by the high schools of this city and aimed to meet the demands of the colleges as to scholarship, and that they may play in the athletic games.

The protest was sent to the following colleges: University of Chicago, University of Illinois, University of Indiana, University of Michigan, University of Iowa, University of Minnesota, University of Nebraska, University of Wisconsin, Northwestern University, University of Notre Dame, University of Wisconsin and Purdue University.

ORIGIN OF THE GAME OF BASKETBALL

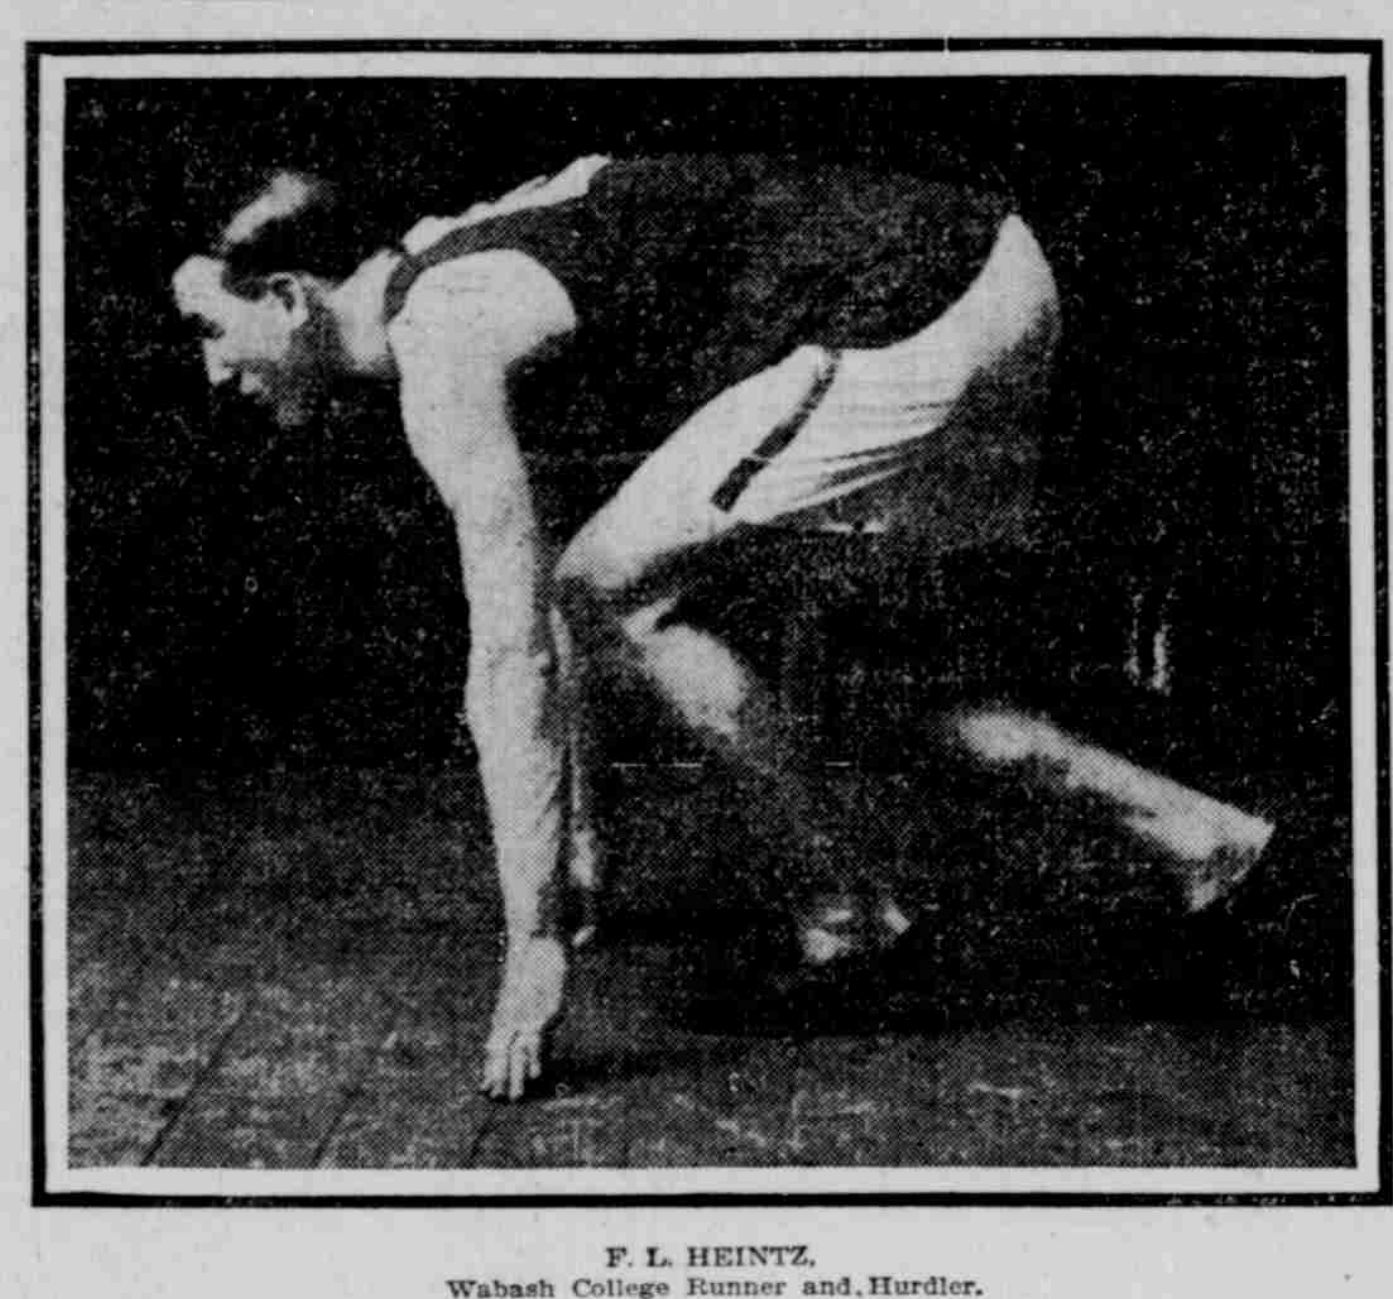

Illustrated Sporting News.

Basketball as a recreative game is unique in its origin, for two reasons: Firstly, it is our own, positively sure, home American production; secondly, the name, date and place of its authorship is exactly known. Of no other game in all the categories can this be said; the birth of the bulk of them is buried in obscurity which reaches beyond the uniform and adaptable to both sexes. Upon this hypothesis one of his pupils, James Naismith, the same night evolved "basketball." It was put into practice the next day, experimentally, and found to meet the conditions and limitations laid down by the professor admirably. But it had more than an academic value, as its rapid spread was one of our most appreciated pastimes.

Gen. J. C. Black Improving.

WASHINGTON, Feb. 6.—The condition of Gen. J. C. Black, civil service commissioner and commander-in-chief of the Grand Army of the Republic, is reported to be decidedly improved to night.

WESTERN JOCKEY CLUB HAS PECULIAR CASE

Kentish Shrew Races in the West as Two-Year-Old When She Is Three.

MISTAKE DISCOVERED

There Is No Evidence of Attempted Fraud—Fool Book Overlooked.

The Western Jockey Club has recently had a most peculiar case to deal with. It had to do with the age of the filly, Kentish Shrew, who has been racing on Western tracks. Kentish Shrew is by Ornament-Maid of Kent II, and was foaled at the breeding farm of H. P. Headley in Kentucky in 1900, making her a four-year-old this season. Despite this fact, she ran on Jan. 2 in this year in a race for three-year-olds exclusively, and in all of her starts last year she raced as a two-year-old. Kentish Shrew is one of the Ornament Maid's purchased by W. K. Vanderbilt in 1901. She was intended for breeding purposes and was not raced in her two-year-old form. Some time last summer J. S. McDonald, acting for Mr. Vanderbilt, sold the filly, then a three-year-old, to John E. Madden, who later sold her to the Western Jockey Club.

Lamasney, who bought the filly to race, evidently thought he was getting a two-year-old, and entered her as such at Fort Erie, the first race of her career. There was no question raised about the age, and when she next started, on the coast, it was in a two-year-old race. It was not until after she had run once this year as a three-year-old that there was an inkling of a mistake in her age.

Somehow the word reached the Western officials that Kentish Shrew had raced one year behind her real age. The Western Jockey Club took the matter up with the registrar of the Jockey Club. His records show that such an error could so long ago have been made. Kentish Shrew is now four years old. To make sure, however, that no mistake had been made, Mr. Headley, the breeder, was communicated with. His reply was that Maid of Kent II had foaled a filly in 1900 which was by Ornament.

This information was sent to the Western Jockey Club, and it was then ordered that the filly be raced as a four-year-old. Luckily, in her few starts she had never earned any money, and as there was no evidence of attempted fraud or of any suggestion even of it on the part of Lamasney, he was exonerated from blame in the matter. Had Kentish Shrew won any money in her racing career, the case would have been a different one.

Maid of Kent II foaled a chestnut colt, named Maxine, in 1901 that was named Kentish Shrew. This colt, however, was a two-year-old, and his nonappearance helped in a manner to clear the name of Lamasney. The question which almost beyond reason, that with the many records of foals and names kept by the Jockey Club and which are always at the command of racing officials, such an error could so long ago have been made. Kentish Shrew is now four years old. To make sure, however, that no mistake had been made, Mr. Headley, the breeder, was communicated with. His reply was that Maid of Kent II had foaled a filly in 1900 which was by Ornament.
